

Divorce?

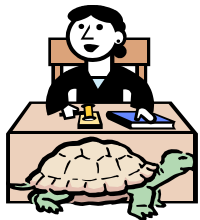

DON'T LITIGATE!

MEDIATE!

If you go to court, you don't know what you're getting into.

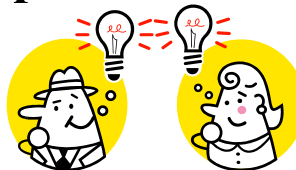

The Court system is back-logged

In the court system, it may take years before your case goes to trial. 75% of the litigation costs derive from

discovery prior to trial!

It is the attorney's duty to leave no stone unturned and to seek out each and every document and face to be prepared for trial. This costs you time and money!

Mediation allows couples to problem-solve the legal issues.

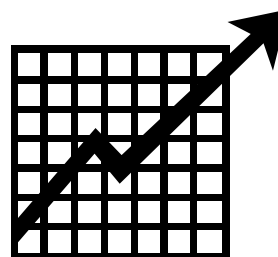

When you mediate your divorce, you do not give your decision-making power to a judge, but

rather, problem solve with your spouse to resolve the conflict.

The mediator facilitates an agreement by structuring the negotiations and providing workable options.

95% SETTLEMENT RATE

A BETTER

ALTERNATIVE

In MEDIATION, 95% of the cases settle. With this process, confidentiality and personal reputations are protected.

MEET THE
